

TOZAL® Eye Health Formula

The Only Eye Formula With Clinical Outcomes of Improved Vision

- The only product based on the patented TOZAL Study formulation
- Comprehensive nutritional eye support clinically proven to help maintain normal macular function*
- Clinically proven to help improve visual acuity*
- Manufactured to OTC Pharmaceutical Standards

The peer-reviewed TOZAL Study published in the British medical journal *BioMed Central Ophthalmology* showed that consistent use of the proper combination of nutritional supplements helped to reduce the risk factors of age-related visual decline over a six-month period and far surpassed results of the landmark AREDS study that has been widely adopted by eye-care professionals as the standard for nutritional supplementation since 2001.

In February 2008 AmeriSciences introduced TOZAL Eye Health Formula, the first and only product based on the patented formula given to TOZAL Study participants. Manufactured at FDA-registered facilities to OTC pharmaceutical standards, using the highest quality ingredients available, TOZAL Eye Health Formula is poised to become the new standard of care for patients experiencing, or at risk of visual decline.

More than half (57%) of the subjects with age-related vision loss who received the TOZAL formula in clinical trials experienced improved vision after six months. Another 20% maintained their visual acuity level over the six month study period.

The remaining 23% experienced “normal” vision decline but no worse than the control group who received a “placebo” containing the AREDS formula. In other words, just over three out of four subjects receiving the TOZAL formula were able to maintain or improve their visual acuity over the six month period they were studied.

Ingredients	TOZAL	PreserVision†
Beta Carotene		
Natural	18640 IU	
Synthetic		28,640 IU
Vitamin A	10,000 IU	
Vitamin C	452 mg	452 mg
Vitamin E	200 IU	400 IU
Zinc	69.6 mg	69.6 mg
Copper	1.6 mg	1.6 mg
Lutein	10 mg	
Zeaxanthin	500 mcg	
Taurine	400 mg	
EPA Omega-3	360 mg	
DHA Omega-3	240 mg	
Anthocyanidins	12.5 mg
